The Master’s Degree in Environmental Education is open to students who have completed bachelor’s degrees in all majors. It is offered through the College of Education, Department of Teaching and Learning in collaboration with the FAU Pine Jog Environmental Education Center. While studying, this university-wide, interdisciplinary program provides opportunities to participate in the Pine Jog Graduate Assistantship Program (housing onsite), as well as, apply academic theory to practical experiences at the Pine Jog Center, a 135-acre living laboratory and preserve; the LEED gold, green Pine Jog Elementary School on Pine Jog property; and the Everglades Youth Conservation Camp.

What are you planning to do AFTER Graduation? Select four approved electives to enhance career choices:

**Elementary teachers** select electives to enhance your classroom science knowledge and skills, and add teaching certification in middle grades general science.

**Middle and high school teachers** select electives to support advanced study in your areas of specialization or explore environmental education’s multidisciplinary content.

**Prospective environmental professionals** select electives to prepare you for exciting environmentally related careers as center, camp, conservation and sustainable planning educators and administrators in urban and rural, public and private settings.

Environmental Education: 12 credits (four courses required)

- **SCE 6345** Perspectives of Environmental Education provides an overview of the field of environmental education (1st EE course).
- **SCE 6344** Advanced Methods of Environmental Education focuses on formal and non-formal collaboration (2nd EE course).
- **SCE 6644** Trends and Issues in Environmental Education emphasizes preparation for your capstone study (3rd EE course).
- **SCE 6196** Capstone Study in Environmental Education prepares you for employment in the EE marketplace (4th EE course).

Global Education: 3 credits (one course required)

- **EDF 6800** Foundations of Global Education addresses international responses to issues in curriculum, or
- **EDG 6625** Global Perspectives of Curricular Trends compares international education systems.

Research Preparation: 9 credits (three courses required)

- **STA 6113** Educational Statistics focuses on concepts and techniques necessary to carry out research (1st).
- **EDF 6481** Educational Research develops skills needed to locate, interpret, and evaluate research (2nd).
- **EDG 6285** Program Evaluation surveys strategies, analyzes literature, and examines state trends (3rd).

Admission to the Master’s Degree in Environmental Education requires submission of the Graduate College application, go to [www.fau.edu/graduate](http://www.fau.edu/graduate). For information about financial assistance, go to [http://www.fau.edu/academic/registrar/FAUcatalog/finance](http://www.fau.edu/academic/registrar/FAUcatalog/finance).
